

Communication stat sheet

Automatically logged in-app use · 12-week period

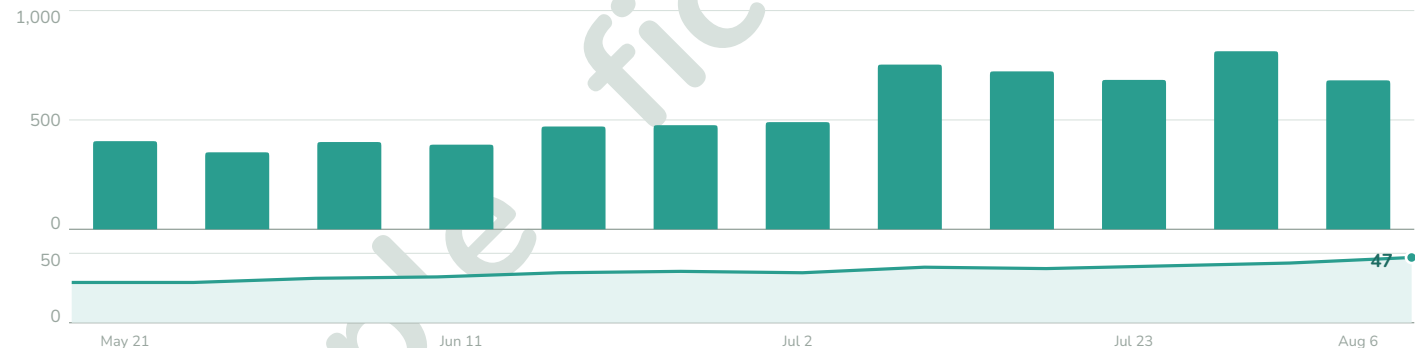

PROFILE Finn GRID 10×6	PERIOD May 14, 2026 – Aug 6, 2026 (12 weeks) COMPARED WITH previous 12 weeks (Feb 18, 2026 – May 13, 2026)	VOCABULARY 7 boards
---	---	-------------------------------

At a glance

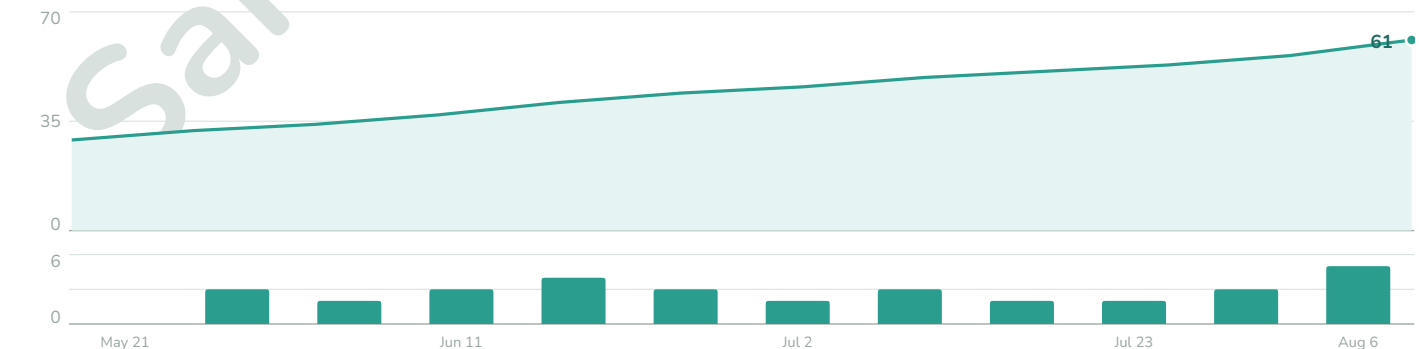

Words used over time

Top: how many words the child spoke each week. Below: how many different words were used that week, the breadth of vocabulary actually in use.

Vocabulary growth

Top: cumulative count of words the child has ever produced in Eleza (within retention). Below: words used for the first time each week; the period opens with the existing vocabulary, so the first week is not counted.

Development over time

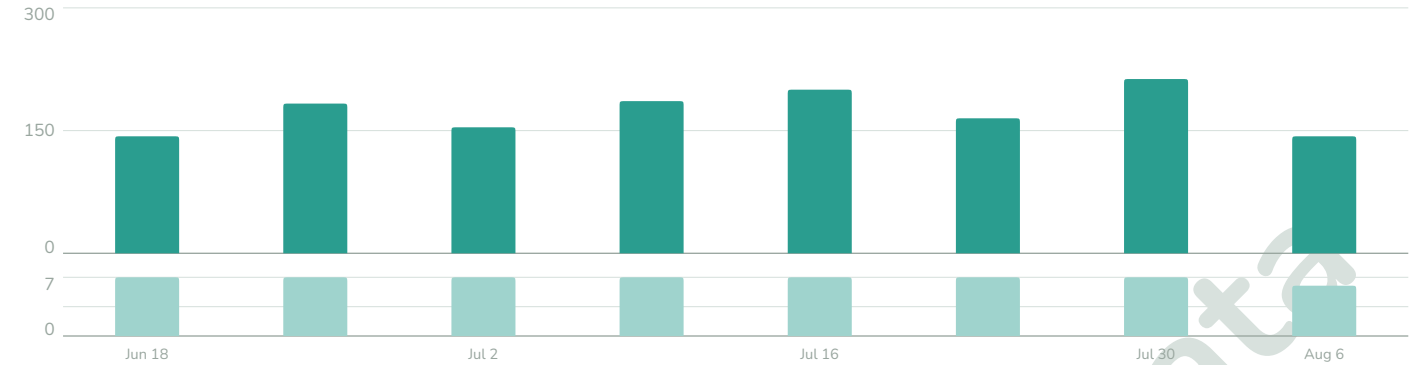

Finn · 12 weeks

How the output is changing, not only how much of it there is.

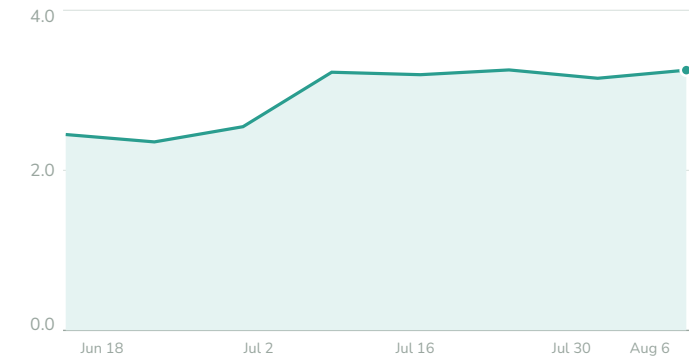

Communication volume

last 8 weeks · sentences only

Top: sentences sent to the speech bar per week. Below: how many days a week Eleza was opened.

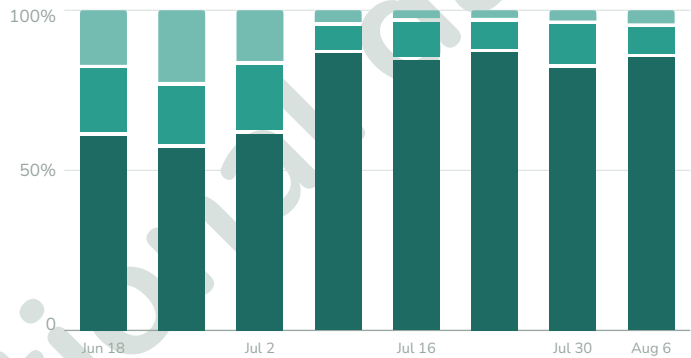

Average sentence length

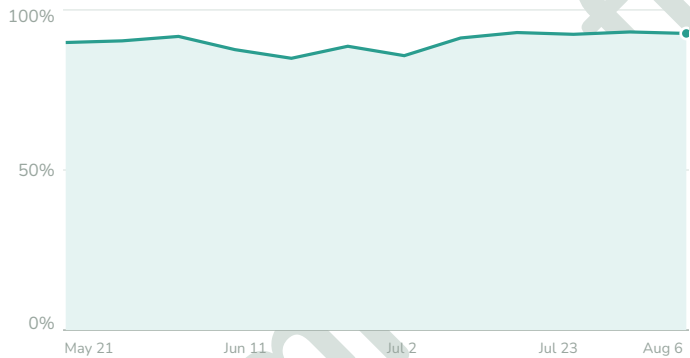

Mean words per sentence.
last 8 weeks · sentences only

Sentence composition

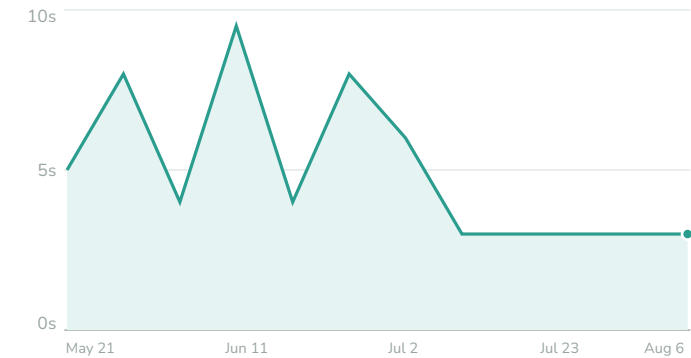

Share of sentences of 1, 2 and 3+ words.
last 8 weeks · sentences only

Core vs. fringe vocabulary

Share of selections that are core words.

Selection speed

Median time between taps within one sentence.

Period on period

each column = 12 weeks

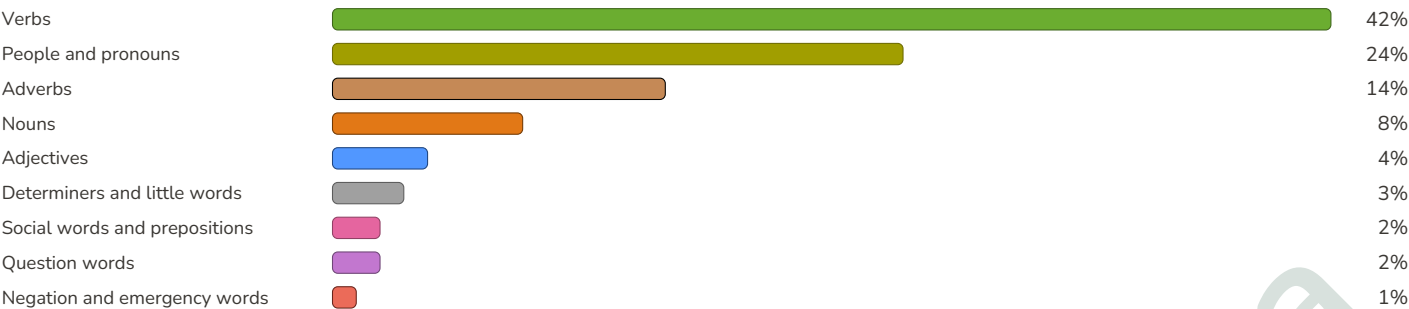

METRIC	PREVIOUS	CURRENT	CHANGE
Words spoken	2,714	6,630	+3,916 words
Active vocabulary	35	61	+26 words
Core word use	92%	91%	-1 pts
Days used	84/84	84/84	+0 days

Vocabulary in use

Finn · 12 weeks

Word classes used

Share of all selections by word class, coloured with the Fitzgerald Key the child sees in the app.

11 I want more	×57
12 mommy come here	×56
13 I want drink	×55
14 what is that	×42
15 help me	×31

Firsts this period

First 3-word sentence	"mommy come here"	Jun 12, 2026
First 4-word sentence	"can I play more"	Jul 2, 2026
First question word	"where"	Jul 3, 2026

Emerging · used only once or twice

flower read sing wave bike jump scared tired together wash brush later run wet warm coat slide

Produced but not yet established: candidates for modelling in the coming sessions.

Never selected

31 of the 57 words on the core board have not been used once in 12 weeks

back hot hungry leg now thirsty angry bye dance do fun give hello hurt in little make my turn +13 more

Some may simply not be needed yet; others are worth targeting.

How to read this sheet

A sentence is one message sent to the speech bar. Sentence length is the mean number of words per sentence. Core words follow the Project Core list, adapted for the app language. Eleza only sees communication produced through the app. Speech, signs, gestures, eye pointing and partner-assisted communication are not captured, so these figures under-represent the child's total communication.
